

## Breezeline to Launch Mobile Service across 13 States

*Breezeline to deliver affordable, reliable mobile service with flexible plans*

**QUINCY, Mass.** – March 14, 2024 – [Breezeline](#), a leading provider of broadband internet, TV and voice services in the U.S., announced today that it plans to launch mobile phone service across its service areas starting in spring 2024.

“We are excited to launch Breezeline Mobile in the 13 states we serve,” said Frank van der Post, president of Breezeline. “Customers will now have a new choice for affordable, high-performance mobile connectivity, with reliable national coverage and a superior customer experience.”

Breezeline Mobile, which will be available to Breezeline Internet customers, will include unlimited nationwide talk and text, combined with By-the-Gig or Unlimited data plans.

The Breezeline mobile offering is flexible, allowing customers to customize their services, including mixing and matching unlimited and By-the-Gig plans on a per-line basis. Additionally, customers have the freedom to change plans at any time at no additional cost. For added convenience and savings, customers will bring their existing mobile devices to Breezeline Mobile.

“We are deploying our services on a robust, industry-leading mobile network with unique customization options that will allow customers to mix and match Unlimited and By-the-Gig plans,” said Heather McCallion, Breezeline’s vice president of new business and business transformation. “Breezeline Mobile will meet a critical need for affordable, high-performance mobile service with bundled savings for Breezeline customers.”

Breezeline will be launching its mobile operations through the [National Content & Technology Cooperative](#)’s (NCTC’s) mobile virtual network operator agreement. A turnkey mobile service solution including customized billing, account management and provisioning will be supported by the cloud platform of Reach.
